Featured Courses:

## Project Management Fundamentals and Certification Preparation

Project Management is complicated and can be difficult - if you're not properly prepared that is. This course goes over all the fundamentals of project management for new and experienced managers. Using certified course material with certified instructors, it'll prepare you to complete the Project Management Professional (PMP) Certifications which have become standard in the industry.

---

## Leadership and Management Skills Boot Camp

This workshop is designed for those who want to boost their leadership and management skills to the next level. You will learn - as a current or future manager - how you will need to rely less on your technical skills and much more on your conceptual and communications skills, such as planning, organizing, explaining and inspiring.
